REPORT OF THE SCHOOL BOARD

For the Year ending Feb. 15, 1902.

Parents and Voters:

In submitting to you, this our annual report, we think we can say that the schools have been fairly successful. The teachers have been competent, and have labored for the welfare and advancement of their pupils.

The schools, as a whole, show a record of good attendance, with the exception of some instances and of sickness. They speak well for the parents, who are certainly trying to bring their children into noble manhood and womanhood.

Of the six different governments under which the child will live, those of the home and school are the most important, and with the aid of the parents and good faithful teachers, may we make even better progress than we have during the past year.

School in No. 3 was closed for a period of two weeks, by the board of health, on account of scarlet fever. Therefore, we are unable to give statistics of winter term.
